VACCINATION RECORD

Health Record

Child's Name: _____

Family Name: _____

Medical Record No. : _____

Age / Date of Birth: _____

Place of Birth: _____

Address: _____

Telephone Number: _____

Hospital: _____

Health Assessment

All parents should make sure that their children are developing well. In order to do a proper health screening and developmental assessment, your child must be seen at regular intervals until he/she starts pre-school.

We recommend that you go for your child's check-up particularly at the following ages:

- 6 weeks
- 10 weeks
- 14 weeks
- 6 months
- 9 months
- 15 months
- 2 years
- 2½ years
- 3 years
- 4 years
- 5 years

Apart from the mentioned visits, you should take your child to the doctor whenever you are worried about his/her health. Abstain from threatening your child about the doctor / hospital / injection as it affects the doctor-child relationship.

Immunization Record

Vaccine	Dose	Age	Given on	Due on	Signature
